

Entering Japan under Residence Track System

PRE-ARRIVAL

Requirements the entrant needs to secure before travelling to Japan

- Visa to enter Japan (visa stamp in passport)
- “Written Pledge” signed/sealed by host company committing to take all necessary measures to ensure that the assignee properly observes the quarantine procedure
- 14-day health monitoring prior to the departure, results of which are recorded on a questionnaire distributed on the flight to Japan
- Certificate of pre-entry testing result in the country/region of departure taken within 72 hours before flight departure ([format](#))
- Private medical insurance to cover period until the assignee is enrolled in local health insurance

UPON ARRIVAL

Procedure upon arrival in Japan

- COVID-19 Testing at the airport using antigen saliva swab test method for which the result will be received the same day (current waiting time is 3 hours).
- Submission of questionnaire completed during flight, “Written Pledge” and Certificate of Pre-Testing Result
- Installation of COVID-19 contact tracing application by immigration officials (LINE for daily health reporting, COVID-19 contact tracing and map applications)

POST-ARRIVAL

Rules for 14-day quarantine after arriving in Japan

- Refrain from using public transportation for 14 days (includes taxis)
- 14 days quarantine at a hotel/serviced apartment that accepts guests who are under quarantine
- 14-day health follow up after entering Japan using LINE (can be done on behalf of the assignee by an appointed person from the host entity)
- Retain mobile phone location data for 14 days
